W.M.S. Fall Rally Held at Wainwright

Mrs. G. H. Villet of Edmonton was guest speaker at the Fall Rally of the Wainwright Presbyterian of the W.M.S. of the United Church of Canada which was held in Tofield on Wednesday, October 10. Mrs. J. L. Hay of Ryley presided.

The meeting opened with a worship service on the theme "Well Springs of Gratitude," given by Mrs. W. A. Glazer and Mrs. J. Hamilton of Wainwright auxiliary.

Mrs. I. S. Reeds of Irma presented the literature and told of the value of good literature in counteracting the evil forces in the world. Assisted by Mrs. P. Patterson of Wainwright, she presented the Home Mission Study book, and its relation to our Church and people.

After a pot-luck dinner served by the Tofield ladies, the afternoon session opened with a singing conducted by Mrs. J. T. Wood and Mrs. J. E. Stinson of Tofield. In the Information Please period discussions were conducted on 4 subjects. These were:

"Overseas Relief"—led by Mrs. Knudson, Irma.

"Our Share in Recruiting for Church Work"—Mrs. J. A. Hamilton, Wainwright.

"Christian Citizenship and Home Missions"—Mrs. J. Francis, Tofield.

"Our Younger Groups"—Mrs. C. Roloff, Ryley.

Mrs. G. H. Villet who had been an Alberta Conference delegate to Dominion Board in May, gave her report of that meeting in Toronto. She mentioned the addresses given by the Dominion Board president and different missionaries from Trinidad, India, Africa, Japan, China and Korea. There is dire poverty in parts of Africa where one gets more than one meal a day, and a missionary's first duty is to get everyone started making a garden, and then to teach agriculture. She spoke of her visit to the Church of All Nations in Toronto, where on a Sunday, in its 3 chapels, 19 services are conducted in 19 different languages.

After a short business session the meeting closed with a hymn and prayer.

World of Wheat

We Pay A Price

The more one observes life the more one is compelled to notice that we have to pay a price for any advancement or progress we make. We discarded Marquis wheat because it was not rust-resistant, but no one pretends that in all other agronomic characteristics our new wheats are quite as good. We have greatly increased the milk production of cows but the modern high milk producer does not have the vitality possessed by the old fashioned low producer. We have greatly increased the production of eggs per hen but the modern bird seems to be much more prone to disease. We abandoned the binder in favor of the combine but grain does not mature or resist frost in the swath to anything like the extent it did in the stock or stack. We have introduced labor-saving machinery on the farm enabling one man to work much more land, but our rural population is declining. We broke up the natural grass of the prairies and grew grain but brought down upon us a veritable plague of weeds.

No doubt this progress has all been worthwhile, but the point to remember, it seems to me, is that we have to pay a price whenever we interfere with nature.

The L.O.B.A. is sponsoring a Halloween dance in Kiefer's hall on October 31. Music by Larson's orchestra.

Show for Bride Elect

The L.O.B.A. held a surprise miscellaneous show for Isabella Jackson, bride of the very near future in Hedley's Hall, October 10. The hall was tastefully decorated in pink and white streamers and white bells. On account of such a busy time many were unable to attend, however, a large and happy crowd made the evening a success.

Three very amusing and educational contests were staged under the wonderful management of Mrs. Symington, Mrs. Prosser and Mrs. Gunn. These were very much enjoyed by all. Shirley Pyle accompanied by her mother on the piano favored with two delightful solos, namely, The Loveliest Night of the Year, which was Isabella's favorite song, and Let a Smile be Your Umbrella. The main event which more than pleased the audience was a song written by Mrs. Hurst for Isabella and her fiancé Chester Bartholow, to the tune of the Tennessee Waltz, accompanied by Mrs. Pyle at the piano. This was a big hit with Isabella and she asked if she might be favored again with this same selection before lunch.

Isabella then asked if Lorna Archibald could assist her in the opening of the gifts. Lorna kindly consented and the unwrapping began. Isabella received some of the most beautiful and useful gifts anyone could desire. After opening what was on the table in front of her, little Faye Reber—Gordon Pyle drew in a wagon nicely decorated also loaded with gifts. After these were unwrapped, Isabella, with grateful appreciation, thanked everyone present for the useful and numerous gifts and invited all her friends to visit her in her new home.

A delightful lunch was then served to around 80 ladies which brought the evening to a close.

The L.O.B.A. would like to take this opportunity to thank anyone who helped in any way to make this shower a success.

Re Radio Licence Check Up

EDMONTON, Oct. 16—Radio inspectors of the Department of Transport are now engaged in a check up on unlicensed radio owners throughout the Province. Radio licences should be kept handy for inspection when called upon.

Those unable to produce current licences must expect a court action with consequent fine and costs. The Dept. trusts, however, that anyone who has so far neglected to procure his or her licence will immediately do so and that a minimum of such unpleasant action will be necessary.

The color of licences this year is yellow for the \$2.50 issue and white for the \$2.00. A separate licence is required for automobile radios.

All licences expired on April 1 last. They may be procured from Post Offices, some radio dealers, or directly from the Radio Inspector, 10138-100 A St., Edmonton.

Jarrow News

Mrs. Patterson and Mrs. Miles of Kinsella and Mrs. Murray of Calgary visited with Mrs. Orzechski on Monday.

Mrs. R. Rohrer assisted Mrs. G. Bridgeman for a couple of days while the thrashers were there.

Stan Orzechski spent part of the week-end with the home folks. Stan entered University this fall and hopes to be a pharmacist.

Thrashing and combining have again been delayed by a light fall of snow.

Legion Zone Rally To be Held in Irma October 24

The Irma Branch of the Canadian Legion are holding the 1951 Zone Rally in Hedley's Hall on Wednesday, October 24, at 8 p.m. There will be in attendance our zone commander Com. Selmer Haffso and representatives from Tofield, Holden, Viking, Kinsella, Wainwright, Edgerton and Paradise Valley. Also guest speakers from provincial command and Department of Veterans Affairs.

All ex-servicemen are invited to attend with their wives or partners. Lunch will be served in the hall and a social evening is planned to follow the meeting.

Be sure to attend.

Village Council Regular Meeting

Minutes of regular monthly meeting of the Council of the Village of Irma, in the province of Alberta, held on the 11th day of October, 1951, in the Village Office at 8 p.m.

Councillors present: W. Symington and W. N. Frickelton.

Mayor Frickelton presiding.

Minutes of the last regular monthly meeting were read and adopted as written on motion of W. Symington.

Correspondence read and dealt with by the Council.

Union of Alberta Municipalities resolution to be placed before Annual Convention at Calgary.

Dept. of Municipal Affairs re general assessment.

Royal Visit committee, Edmonton re reservations.

Bylaw No. 178 of the Village of Irma for the purpose of appointing a gas inspector pursuant to section 5 of Bylaw No. 178 Schedule A thereof dated the 12th day of April, 1951.

Passed first, second and third reading.

Symington—that Council advertise tenders for care and maintenance of the Skating Rink.

Symington—that secretary be empowered to pay such amounts of the NWU Ltd. as rendered so as to obtain discounts thereon.

Frickelton—that in the matter of general assessment, 1952, that this Council request that under section 74, subsection 4, that the Director of Assessments shall appoint a departmental assessor, pursuant to subsection 5 thereof for the purpose of making a general assessment for the Village of Irma, such assessment to be used for the purpose of taxation in 1952.

Matters relating to sidewalk on Main Street, Rest Room, Cistern and Town Pump were discussed.

Mayor notified Council that permission had been given for the NWU Ltd. to extend their service line further east on second Ave.

Financial Statement presented.

Receipts for month of September, \$899.86. Disbursements \$2038.88. Municipal Balance Bank of Montreal \$8079.91. Agric. Account \$304.48. Cemetery Account \$106.42.

Symington—that statement be accepted as presented and following accounts amounting to \$808.55 be passed for payment.

Symington—adjourn.

In Memoriam

In loving memory of our dear father and grandfather Mr. Roland Herbert who passed away on October 24, 1950.

We can never feel the same Without you kind and dear. You were so dandy and sweet and good.

Your passing is hard to bear. Sadly missed by his daughter Verna and grand-daughter Irma.

Variety Concert Has Capacity Crowd Both Nights

On the evening of Saturday, October 13 and again on Monday, October 15, a variety concert sponsored by the United Church W.A. was given in Kiefer's Hall. This was a smoothly running performance, and, in spite of the busy season, both evenings were well attended.

The Rev. H. W. Inglis was an able master of ceremonies and the following program was very pleasingly presented:

Selections by Larson's orchestra. O' Canada.

Chairman's remarks — Mr. Inglis.

Trio — Mrs. Simmerman, Mrs. Black and Mrs. Hurst.

Recitation—Carol Smallwood.

Instrumental — Mr. Nisson and Joan.

Song — Allan Symington, Gary Hubman and Ian Inglis.

Recitation—Harold Anquist.

Song—Group of little girls, Shirley and Carol Lovig; Isabella Inglis, Eileen Anquist and Verle Sampson.

Play—directed by Mrs. Sather. The Five Fifteen.

Saxophone Duet — Mrs. Hurst and Iris.

Reading—Mr. McLean.

Accordion Solo—Marjorie Lewis. Corn Fed Baby.

W. A. Play — Mr. and Mrs. Reeds, Iris Hurst, Doreen Simmerman and M. Frickelton.

GOD SAVE THE KING.

Easterly Echoes

Mrs. Hugh Adams spent a two week vacation in Edmonton.

Mrs. J. McCartney of Abbotsford, B.C., arrived here to visit at the home of her daughter Mrs. W. Dootson.

Mr. and Mrs. J. D. Campbell of Edmonton spent last week at the home of Mr. and Mrs. M. Enger, visiting relatives in the district and in Wainwright.

The Battle River W.I. have their bazaar planned for Friday, Nov. 30 starting at 3 p.m. Everybody welcome.

Cyanide Gun Discussed At Service Board Meeting

The Wainwright Agricultural Service Board met in the Council Room of the M.D. of Wainwright No. 61 on Friday, October 5, 1951 at 1:30 o'clock in the afternoon.

Messrs. Smale, Bell, Folkins, Robblee and Maddex present also at the meeting Mr. J. E. Birdsall, Supervisor, Crop Improvement, Dept. of Agriculture.

Folkins—that the minutes of September 7 be accepted as read. Cd.

Reference to the speeding up of T.B. testing in this district the sec. was instructed to write the Health of Animals Division, Govt. of Canada at Ottawa, also to write the member of parliament for Battle River Const., Robert Fair.

The Field Supervisor Mr. Maddex gave his report. Certain Stop Seeding notices were dealt with.

Robblee—that the report of the Field Supervisor be accepted. Cd.

Folkins—that the fees for vaccination against Bangs Disease and T.B. blood tests shall be the same as former years (see August 6, '49 minutes) but a fee of \$1.00 a head be paid by cattle owners for brand's reactors. Cd.

Mr. Birdsall addressed the meeting respecting Seed Drill Surveys, forage crops and varieties of grain suitable for combining.

A suggestion was made re to a Seed Fair to take in points along the railway line. No action.

In the matter of coyote control correspondence read from the Al-

Kinsella News

Mrs. K. McCallum and daughter Jeanette and Miss C. McKie who have been visiting at the home of their mother Mrs. Wm. McKie, left on Saturday morning for their home at the coast.

Mr. and Mrs. E. Simmons spent a few days in the city last week.

Other visitors to the city were Mrs. A. Berizansky, Mr. F. Hajek and Mr. F. Murray.

Mrs. G. Lee of Edmonton is spending a few days with her sister Mrs. J. Murray.

Mrs. A. Murray of Calgary is visiting at the home of Mr. and Mrs. G. Paterson.

Everyone who is able, is engaged in threshing and we all hope the weather man is good to us until everyone is threshed.

The annual Hallowe'en party sponsored by the members of the W.I. will be held on Saturday, November 3. All ladies and children of the district are invited to attend. Will the ladies please bring lunch.

The show on Friday evening will be "It Happens Every Spring."

The Farm Economy

ECONOMIC PROBLEMS of the Canadian farmer at this time were discussed at the annual meeting of Canadian and American farm economists held recently at the Ontario Agricultural College at Guelph. It is well known that farmers are dependent upon the same factors as those operating other industries in carrying on their work. Capital, labour, equipment, and marketing conditions are among the many matters which are of great importance to the farmer, and problems of this nature were discussed at the meeting. Dr. H. H. Hannam, president of the Canadian Federation of Agriculture was one of the speakers, and gave some interesting facts concerning the farmer's position in the Canadian economy at this time.

Do Not Share High Returns

Among the many facts presented by Dr. Hannam, were some dealing with the relationship between the farmer's returns for his work and the general level of prices and profits at this time. From May, 1950, to June, 1951, Dr. Hannam said, industrial prices rose 32 per cent, while farm prices rose only 15 per cent. In the same period, retail prices rose 17 per cent, and there was a 12 per cent. rise in the cost of living. These figures show that in spite of the high levels to which food prices have risen in Canada, the returns to the farmer have not been in proportion to those in industry or in the retail business.

High Costs Of Operation

At the same time the farmer has been buying equipment, and the various items needed to operate his farm and his home at the high market prices. In the period mentioned above, wages of farm help were increased 12 per cent. Although he is not getting his full share of the present high prices, Dr. Hannam believes that present returns to farmers are satisfactory, but he predicted a reduction in farm prices with the expectation of meat in the near future. These, and many other aspects of the farmer's economic problems were discussed and it was shown that shortages of equipment and of adequate labour are now causing hardship, while lack of sufficient capital is a constant drawback to the average farmer. It is well that the public should be made aware of these matters, for in view of the high cost of food at this time, other sections of the population do not always have an accurate view of the farmer's economic problems.

SASKATCHEWAN

Fewer Deaths In Traffic Accidents

REGINA—Number of traffic accidents in Saskatchewan has increased this year although there have been fewer highway fatalities, J. A. Christie, chairman of the highway traffic board, said in a bureau of publications release.

To the end of August this year there had been 38 fatal accidents, compared with 43 in the same period in 1950. These accidents caused 45 deaths last year and 40 in 1951. Total accidents for the same two periods were 3,675 this year and 3,359 last year.

Edmonton Fans Lose Appetites

EDMONTON, Alta. — The Gloom of Edmonton football fans has apparently extended to their stomachs.

J. H. Jackson, hot dog concessionaire, said sales spiralled to 485 dozen when the Edmonton Eskimos downed the Winnipeg Blue Bombers in the western conference football season.

The Eskimos then hit a slump when losing to the Saskatchewan Roughriders. Jackson's sales dropped to 380 dozen. When the Eskimos lost again to Winnipeg the sales tumbled to 300. Nobody in Edmonton is rooting harder for the team than Jackson.

CANADA'S FINEST CIGARETTE

Funny and Otherwise

A recruit who was notorious for being late at roll-call on one occasion happened to be the first to fall in. It was a great surprise to the sergeant, who had almost given up the man as incorrigible, and he expressed himself sarcastically, "Huh! You're funny at last! You've ah-huh-zed him behind before."

"What about the thirty-five dollars you owe me?"

"Quite all right — it's your birthday next Sunday and I'm going to bring it to you with my congratulations."

"You just bring the money and I'll congratulate myself."

A man walked into a restaurant and sat down at a table. "What will you have, sir?" asked the waiter.

The customer shook his head. "Not a thing," he replied. "I'm not hungry."

The waiter stared. "Then what's the idea," he grumbled, "of coming in here?"

The customer shrugged his shoulders. "It's very simple," he explained. "This is my lunch hour."

Mr. Barr was a keen cyclist and his young wife played the piano. They had a little son and both desired to christen him with a name that would embrace their favorite pursuit.

After much thought they decided to call him Handel Barr!

"His fishing stories are impossible. He's just been trying to tell me that he once caught six jelly-fish, all different flavors."

Speaking about hatred, a preacher asked those members of his congregation who had conquered this sin to stand up.

A very old man—the oldest man in the county—got to his feet.

"You don't hate anybody at all?" asked the preacher.

"No, I don't," said the old man. "That's wonderful. Tell us how you did it."

"Well," piped the aged one, "all those skunks who did me wrong, all those blackbills I hated—and he cackled triumphantly—"they're all dead!"

D.A.: "Are you positive that this man stole your car?"

Plaintiff: "I was, but after the cross examination I'm not sure that I ever owned a car."

A woman in the midst of divorce proceedings was complaining to a friend about the boring conferences she had to endure with lawyers.

"Oh," said her friend, "don't talk to me about lawyers. I've had so much trouble over my property that sometimes I wish my husband never died."

Wife: "Well, what happened when you asked your boss for a raise today?"

Father: "Get up, son, the day's half gone. What do you suppose Abraham Lincoln was doing when he was your age?"

Son: "Haven't the slightest idea, but I know what he was doing when he was your age."

Husband: "Why, he was like a lamb."

Wife: "What did he say?"

Husband: "Baa."

Fish are able to live at the greatest known depth of the oceans.

Despite Weather Wheat Protein Content High

But Grades Take Slaying

WINNIPEG—Wet weather on the prairies has struck a heavy blow at the grade of this year's record wheat crop but the grain's protein content—important in bread-making—remains high.

Results of a survey released by the grain research laboratory of the board of grain commissioners showed that less than five per cent. of hard Red spring wheat is expected to grade No. 1 Northern. This compares with the 10-year average of 28 per cent. Less than 20 per cent. will make No. 2 Northern compared with 46 per cent.

Despite the poor grade, the "preliminary protein level" of the wheat is 13.9 per cent., the same as last year. The long-time average for Canadian wheat is 13.6 (For bread-making 13.3 is considered ideal; percentages can easily be lowered to that figure.)

The board's chemists said the main factors in the degrading were sprout-

ing, bleaching and related types of damage caused by wet harvest weather. All across, the prairie grain belt, farmers have been harassed by rain, sleet or snow in efforts to reap an expected crop of almost 350,000,000 bushels of wheat.

PROPOSED ADDITION TO THE VIKING MUNICIPAL HOSPITAL

Voting on Saturday, October 27, 1951

THE PLAN

The plan provides for the erection of an addition to the present Viking Municipal Hospital of approximately 21 beds. This will increase the capacity of the Hospital to 37 beds and provide new operating room, maternity case room, nurseries, X-Ray department, laboratory, waiting rooms, treatment room, nurse and staff sound-proof quarters, and many other changes made throughout the hospital.

The Purpose

To provide the best nursing and modern Hospital services for all the people in the District and to ensure that there is a Hospital bed available at any time for anyone in the District requiring hospitalization. The increased facilities should be an inducement for expanding medical service, and the possibility of a permanent clinical centre being established.

Why Is It Necessary?

At the present time the Hospital is generally overcrowded and the work of the hospital staff greatly increased. In the past and at present, it has been extremely difficult to hire and hold a full staff of competent nurses on account of the lack of suitable nurses' quarters. The population of the Municipal Hospital District is continually increasing, and this fact, coupled with the many new developments in medicine and hospital services, makes it necessary that we keep abreast of the times and provide the health services the people are entitled to.

Construction Grants

The Dominion and Provincial Governments are combining to give construction grants amounting to \$2000.00 per bed for all new hospital construction effective April 1, 1948, and continuing for five years only. It is expected the grants for the proposed new addition will amount to \$40,000.00, thereby reducing the debenture indebtedness to \$110,000.00. It will also raise the status of the hospital so that the monthly grants will be increased.

Cost to Ratepayers

It is estimated that the cost to the ratepayers for the proposed addition will be 1.79 mills, based on 1950 assessments. Hospital ratepayers and ticket holders will continue to pay the basic ward rate of only one dollar per day.

Why Vote On the Plan?

The Municipal Hospitals Act requires that those who reside in the Hospital District shall themselves decide whether or not they wish to have the proposed addition built and alterations made. To do this a vote must be taken to record the number for and against the By-law. A two-thirds majority of those voting is required before the By-law is considered approved.

Who May Vote?

- (a) All persons liable to pay municipal taxes within the Hospital District, or liable to deliver a share of crop as rental on Provincial government lands within the District.
- (b) The wife, husband, sons and daughters at least twenty-one years of age, of such persons and residing with such persons in the District.
- (c) If your name is not on the voters' list, and you are qualified to vote, you may do so by signing a declaration on a Form provided under the Act, at the poll on the day of voting.

SPECIAL NOTE:

Voters may, where road conditions are bad or when it is more convenient, cast their ballots at another Polling Station other than where they are registered, by signing the necessary document.

Ministerial Order:

MINISTER OF HEALTH
PROVINCE OF ALBERTA

I, WALLACE WARREN CROSS, Minister of Health, pursuant to section 71 of the Municipal Hospitals Act, R.S.A., 1942, as amended, and pursuant to any other appropriate sections of the said Act, do hereby direct that a vote shall be taken on By-law No. 1/51, as enacted by the VIKING MUNICIPAL HOSPITAL BOARD, which by-law is hereinafter recited:

BY-LAW No. 1

Viking Municipal Hospital District No. 10

A By-law relating to the issue of debentures of the Viking Municipal Hospital District, No. 10, of the Province of Alberta. WHEREAS it is necessary and desirable that the sum of One Hundred and Ten Thousand Dollars (\$110,000.00) should be borrowed on the security of the Viking Municipal Hospital District, No. 10, of the Province of Alberta for the purpose of building and equipping an addition to the Viking Municipal Hospital, repayable to the bearer in twenty (20) annual instalments with interest at not more than six (6) per cent per annum.

NOW, THEREFORE, the Board of the said district enacts as follows:

1. That the Board do borrow the said sum of One Hundred and Ten Thousand Dollars (\$110,000.00) or any less sum pursuant to the provisions of the Municipal Hospitals Act, and that debentures of the said district be issued for such amount, payable to the bearer in twenty (20) consecutive annual instalments with interest at not more than six (6) per cent per annum, payable annually; and said debentures shall be executed by the Chairmen and Secretary of the Board.

DONE AND PASSED this 19th day of September, 1951.
A. HAFSO (Signed) J. F. MURRAY (Signed)
Secretary Chairman

I hereby appoint Mr. H. W. K. Hilliker of Viking, Alberta, as Returning Officer for the taking of the said poll, who shall divide the area into polling divisions, and name a polling place in each division, and appoint a Deputy Returning Officer for each polling division.

I direct that the provisions of section 21 of the Municipal Hospital's Act shall apply to the preparation of a voters' list and preparation of a separate list for each polling division as therein provided.

I further direct that the Returning Officer shall give notice of the date of such poll in the week of October 10, 1951, issue of the Viking News, being a newspaper circulated in the Hospital District, and that a like notice be posted in any other places at the discretion of the Returning Officer, throughout the hospital district at least fourteen (14) clear days before the date of the poll.

I hereby fix the date for taking of the poll as the 27th day of October, 1951, from the hour of 9:00 a.m. to 6:00 p.m.

I further direct that the said Returning Officer shall on the 30th day of October, 1951, at 2:00 p.m. in the office of the Secretary-Treasurer, open the ballot boxes and finally declare the results and certify to the Minister the total number of voters voting and the number of voters voting in the affirmative and the negative on the question.

DATED AT EDMONTON, Alberta, this 24th day of September, A.D., 1951.

W. W. CROSS,
MINISTER OF HEALTH.

"Government Control"

Address Delivered To
Weekly Newspapermen
By W. E. McCartney

By popular request the following in detail is main address delivered by W. E. McCartney, Managing Director of the Canadian Weekly Newspaper Association, at the Manitoba Division of the C.W.N.A. Convention held at Brandon, Man., September 13th and 14th.

Only a month has elapsed since I made my annual report of Association affairs. Hence I will not dwell further on C.W.N.A. matters, instead I wish to talk to you about something that concerns you very much as editors and also as Canadians. Before beginning I am tempted to stop down from my position as Managing Director of C.W.N.A. and address you simply as a Canadian citizen, with all the rights of free expression such a citizen enjoys. Whether you listen to me as an officer of C.W.N.A. or simply as Bill McCartney—Canadian—the subject is of vital importance and it is your duty as editors of a most influential medium of expression to consider it carefully.

The subject is Government Control. Since I first started in newspaper work, 21 years ago, my experience has been acquired during nine years of depression economy, seven years of war economy and lately, five years of so-called inflationary economy.

Which of these can be considered normal? In fact, can any of you define the difference between normalcy, depression, and inflation? Frankly I cannot.

Sure! Beefsteak is a dollar-and-a-half pound just now and it was 20c a pound in 1933. But which is normal? Or to ask another question—will beefsteak at 20c a pound, who had 20c? I know that Labor Unions are crying high prices and demanding higher wages; farmers want more for their milk, eggs and livestock; manufacturers want more for their refrigerators, TV sets and automobiles. But in this inflation or the normal growing pains of a new country certain to become great in this half of the 20th Century?

It is indeed interesting to note the following statistics which I obtained from the Dominion Bureau of Statistics.

With a basis of 100 in 1930 the basic wage index of 1937 was 98.7.

On the same basis the 1938 index is 225.5.

In 1937, total employment in Canada was 4,070,000 persons—in 1931, 5,332,000.

Our national income in 1937 was \$1,017,000—in 1930 it was \$1,308,000.

Although the Dominion Bureau of Statistics continues to issue price indexes showing a consistent rise in prices since the base period of 1935-39, and some daily newspapers give headline space to these figures—it is certain that no one in this room wants to see the cost of living drop back to that of 1935-39. If you do, then also remember that those four years saw business after business and newspapers included, going bankrupt. Farms were deserted, moratoriums declared on farm loans, elderly people lost their homes because they had no income; thousands of our young men were roaming the nation as hoboes, sleeping in jails and escorted to the town limits in the morning. Thousands upon thousands of families were living on relief and large portions of our retail business was done with relief department vouchers.

Do you want a return to that kind of normalcy?

Admittedly, there are many problems confronting us, both as businessmen and individuals. Newspaper goes up and up in price, beef and butter do likewise. But as Government Controls the best and only answer to these problems? I think not! I suggest that the best answer lies in a return to Free Enterprise—a system which we all approve, or at least say we do—and a recognition of the law of supply and demand. In the years 1930 to 1939 over-production was blamed for most of our ills. I submit that it was under-consumption. Now over-consumption is blamed for our troubles. I submit it is under-production. The profit system which allows the seller to price his goods at whatever the traffic will bear, I feel, provides the necessary incentive for a farmer to produce more, a workman to work longer, and ultimately result in lower prices.

Incentive has in one way or another been eliminated from almost every walk of life. Corporation taxes, income taxes, deferred depreciation regulations and credit restrictions are killing incentive, while at the same time our Government asks for greater production from workers, farmer and industrialists.

It would appear that one of the chief fallacies of Government thinking is that Governments can more efficiently run your business and, in fact, your life, than you can yourself. One of the classic examples of this was a By-law passed in my home town, prohibiting the sale of fuel by anyone who did not operate a coal and wood yard within the town limits. At first glance such a By-law seems reasonable, but consider

what would happen if the By-law prohibited the sale of any publication by anyone who did not operate a publishing plant within the town limits? The stupidity of such by-laws is so obvious that comment is unnecessary.

The important thing to remember is that Governments at all levels—town, county, province and federal—have assumed that they have an almost Divine Right to regulate any and all businesses and too few of us raise any objection.

Too, Governments are becoming more and more paternal. No longer is it necessary for a man to do the best possible job to avoid unemployment, no longer need children support their parents as the Government has relieved us of these responsibilities. Part of the responsibility of raising our children has been assumed. Soon, it is understood, demands for national health insurance will be made and probably accepted.

Not long ago a Senate Committee reported some opinions and one which stood out far ahead of the rest was:

"In the judgment of your Committee the steady growth that has been apparent now for quite a number of years, of dependence on the state, can lead to only one of two results: Either in a steady increase in the power of the state over the rights of the citizens, or the breakdown of democratic representative government as we have understood it and practiced it in the past. The lessons of history in this respect are clear for all to read."

We are living in turbulent times. Never cease telling your readers this fact. The confusion has become so great that we stand at the crossroads of civilization. When we go? What shall the end be? You can answer these questions through your editorial columns.

Hundreds of millions of people around the world are groping hopelessly and blindly in the darkness of statism, or the welfare state, or socialism—the next and final step to communism—which means slavery and finally obliteration. History, both ancient and modern, is filled with the stories of nations who have tried the noble experiment of providing for the welfare of their people. But the pages of that history are smeared and blotched with accounts of failure, humiliating stories of people who discovered that governmental promises of security and happiness were too late to turn back, they found out that they had traded their freedom for slavery, their prosperity for poverty, their peace for war.

While the world is in other parts of the world, we have enjoyed, for nearly two hundred years, more privileges and blessings and opportunities than any other people on earth. We have under the way of life handed down to us by those early pioneers of freedom, the poorly clad, uneducated, towheaded lad on the banks of the great lakes has equal opportunity with the educated, well dressed, pampered son of the millionaire to chart their own futures, and to be the architects of their own fortunes. We have taken advantage of those opportunities and have become the wealthiest, the healthiest, the most fortunate people in the whole world.

How did all of this come about? Was it because a group of government bureaus and agencies planned and blundered out our course? NO! It came about under a system of Freedom and Free Enterprise in which control by bureaucrats and governments was unknown.

I do not pretend to be an expert on economics but this I know. The economy of this entire continent—north of the Rio Grande—has been built on business free from government control—our marvels of mass production are the direct result of unrestricted credit. Credit for expansion—credit for purchasing. The gains of the last 50 years may well be lost if restrictions and controls remain and are extended.

You, the editors of Canada's weekly newspapers, must see to it that opportunities such as we have known are not stifled by bureaucrats given the power to control our lives, our businesses, our finances and our savings.

Thank you.

OLD HORSE
COPENHAGEN.—A veteran Danish farmer believes he owns the world's oldest horse, an Icelandic pony, now 54 years old. "She is my old friend," he declares. "We worked together until she was 44 years old—twice the average age of a horse."

ANSWERS TO QUICK QUIZ

ANSWERS. 5. The pulp paper industry. 3. Over \$5 billion. 1. Nova Scotia. 2. 4,000 miles east and west, 3,000 miles north and south. 4. 25 cents federal tax.

(Material supplied by the Editors of Quick Canadian Facts, the hand-book of facts about Canada.)

WATCHES, HOBGOBLINS AND GAY PARTIES—Harvest is here and thoughts are turning to indoor parties, and perhaps the first one is the Halloween frolic, with its witches, hobgoblins and traditional decorations. Here we see this pretty miss all set with a pumpkin and a sheaf of wheat.

It's Oil They
Are After Now

When one looks to the west at night watching the sixty foot beacon derrick lights of the oil drilling machine south of Flandreau, Sask., it seems a far cry to the days when the homesteader ploughed his oxen up and down the prairie to change it into the great wheat fields of today. Many adventures had the oil-timers of those days. Today the huge machine steadily bores its small hole deep into the strata of the prairie seeking the black gold oil deep beneath its surface. Thousands of feet the search goes down, every foot is kept tab of. Thousands of dollars are spent in the search for the life blood of industry today. Where drilling is going on, as we believe, the old Taylor homestead, in the days of the oxen. We may yet see the day when oil pours from the wells in the area. Who knows? What a transformation it may make!—Craik Weekly News.

SMILE OF THE WEEK

A man was arrested for assault and battery and brought before the Judge.

Judge: "What is your name, occupation, and what are you charged with?"

"Prisoner: 'My name is Sparks, I am an electrician and I am charged with battery.'"

Judge: "Officer, put this man in a dry cell."

How did all of this come about?

Was it because a group of government bureaus and agencies planned and blundered out our course?

NO! It came about under a system of Freedom and Free Enterprise in which control by bureaucrats and governments was unknown.

I do not pretend to be an expert on economics but this I know. The economy of this entire continent—north of the Rio Grande—has been built on business free from government control—our marvels of mass production are the direct result of unrestricted credit. Spectacular Zinc
Discovery Made

CRANBERRY PORTAGE.—Said to be spectacular zinc discovery, quite a stir among mining men was created in Pin Flon recently when Pete Stuart, veteran prospector, arrived there by aircraft from the Laurie river territory bearing a package of ore samples, some of which are said to contain the highest grade of zinc ever to have been brought to this town.

Pete Stuart, and Jack Murray of Cranberry Portage made the discovery while on a prospecting trip along the Laurie river, close by the route the Lynn lake railway will traverse when constructed. The fact that the Lynn lake railway is being constructed north from Sherridon made these prospectors deem it worth while going into that territory.

The showing has been traced for a distance of 250 feet on land, then it dips into the river. Negotiations are being under way for further proving of the claims.

Lew Murdoch, mining man from Toronto, now in this part of the country, said there was no doubt there would be no doubt the prospectors going into the rich mineral territory which the C.N.R. will open up in the next two years.

CLEAN FREQUENTLY

Cleaning the face of a horse collar frequently—particularly if it is cloth-faced—and drying it out in the wind and sun, will add to its life.

Noted Expert

Started Study
Of Tar Sands
Back In 1913

EDMONTON.—Dr. Sidney Clarke Ellis of Ottawa has probably done more than any other to bring the Athabasca oil sands into prominence—but now he's content to take a back seat.

Passing through Edmonton on his way to the west coast, he sat in on the Alberta oil sands conference recently. The 100-odd experts attending asked him to speak but he declined.

The sands straddle the Athabasca river in northern Alberta. They are vast deposits of a heavy, thick oil mixed with gravel, clay and sand, and are considered by many the world's largest known reserve of oil. Yet untapped, the sands have been experimented with for years to find an economical method of separating the oil and sand mixture.

R. M. Blair, Toronto petroleum engineer, presented a report in January of this year which served to back up claims Dr. Ellis made years ago that commercial development was possible.

Dr. Ellis' interest in the oil sands dates back to 1913. Then he was assistant to the director of the federal mines branch.

An Alberta real-estate boom started it all. Slick operators were selling subdivided parts of Alberta as far north as the muskeg around Fort McMurray.

Ellis was instructed to read up on the tar sands. But there was nothing to read. Ellis suggested a personal survey. When the department decided against the survey, Dr. Ellis handed in his resignation.

Officials reconsidered, and in May, 1913, he began his survey with an allotment of \$1,000.

Dr. Ellis, a crew of four men, a leaky canoe, and a canoe shot rapids, traversed Athabasca river tributaries to the north and south, and explored the total extent of the oil sands.

In the fall, they returned upriver to Athabasca landing with a 10-ton load of samples—the first important specimens ever taken from the field.

As far back as 1914, Dr. Ellis was beginning to plan large-scale drilling programs, and was thinking of hot water stimulation as a method of separating oil from the sands.

With the passing years, he began to make headway. Interested parties in the United States and Britain started eyeing the oil sands.

In 1943-1945 Dr. Ellis initiated and supervised the large-scale drilling program and was the first to interest foreign capital in the deposits.

Now over 70, Dr. Ellis has been retired six years and devotes his time to writing and gardening. But he says the 50 years he spent in the oil sand country probably "advanced the production date 10 years."

Quick Canadian
Quiz

- Which is the most important mineral in the Maritime provinces?
- How many miles does Canada extend east and west, north and south?
- This year Canada's various governments will spend \$800 million, \$2.6 billion, \$5 billion?
- Of the 40 cents paid for a package of cigarettes, is Ottawa's tax 5 cents, 15 cents, 25 cents?
- What single industry is first in employment, in total wages paid, in value of production, in exports, in capital invested?

OUR COMPLETE SHORT STORY

Blonde Treasure

"I've Been Such a Fool—
Such a Big Fool!" Said
Holden's Wife.

By I. de LA TORRE

OLD Bill Bates, the lobster fisherman, was spinning yarns again. He was sitting in the sun on the long, wooden bench before the general store, a cornucopia pipe in his mouth and a little, attentive boy at each elbow. City kids. Bill preferred city kids as listeners. They hung on his every word, gasped at the right places and never questioned his adventures as did the native cherubs. Ronald and his brother, Gerald, were leaning over, their blonde heads almost touching over Bill's lap.

"You see that island out there?" and he pointed to a jagged, green piece of land at the mouth of the harbor, "that there is where the Scut-Bug was shoved against the rocks in the storm."

"And that's where the treasure was setting under a tree?" Ronald cried.

"Captain Kidd's treasure, I bet! It must be!" Gerald was six, a year younger than his brother. His vivid imagination had already transported him to the island. He was pushing back the lid of the big, rusty trunk, thrusting in his hands and letting diamonds, pearls and gold pieces trickle through his fingers. Bill's voice brought him back.

"And when I came back with help and boats to pick it up, it was gone. A tiny sedan pulled up and the boys jumped off the bench and greeted their father."

"Say, don't you boys know when to come home for supper?" he asked. "Your mother's had hers and left. She said she couldn't wait."

Quickly he looked away from his sons' disappointed faces. Couldn't

wait, Mr. Holden thought to himself. Couldn't wait for them. Bridge games, fashion shows, afternoon teas. These were the important occasions in his wife's life that carelessly swept everyone else aside. An hour ago he had brought it to her attention. She had defiantly suggested divorce.

They were already beside him in the car. "But she promised to toast marshmallows with us tonight," Ronald insisted, "and—"

After a grim supper together, Mr. Holden drove away to pick up the next day's bait and the boys raced down to the wharf. There, among the rows upon rows of lobster traps and the sea gulls gliding and crying overhead, they were in their element. And that was the first place Mr. Holden looked for them just before dark. Bill Bates was with him. Mrs. Holden stayed in the car.

"They ought to be here," Bill declared. "Mostly never see them no place else." Both men peered over the edge of the wharf, but Bill was the first to notice one of the pants was missing. Mrs. Holden, a slim brunette in white shark's skin slacks, approached in time to hear Bill insist, "But I don't think they'd do it. It was only an old sea tale I was telling them."

"Do what?" Mrs. Holden asked. "Her husband explained, 'Bill here thinks they might have rowed out to that island. He made up some story this afternoon about treasure out there.'"

Mrs. Holden grasped the tackle block for support. "But they can't swim," she whispered in fright. She looked at her husband, but he was already climbing down the ladder. She followed him. He began to rain. Bill watched them row away, then ducked into the bathroom to wait.

Mr. Holden rowed in the thrashing rain. The clumsy home-made punt played through the waves when it should have glided over them. The water splashed inside the boat. They must have been rowing around for hours for his hands were becoming numb, and his fingers remained curled whenever he lifted them off the oar handles. It was so dark he could only make out the outline of his wife clinging to the seat facing him. At her instant urging to keep rowing, he plunged the oars in again, pulling long and hard. Suddenly he saw a light moving over his wife's shoulder.

searchlight played over them, and then the coast guard was there, picking them up. Two men leaned over and pulled Mrs. Holden into the boat. She was trembling and shivering at the same time. Her once crisp, white slacks hung, dripping, to her frail body. She grasped the arm of the nearest rescuer. "Have they found the boys yet?" She had only waited for a slight nod before she began to sob and crumple up. Her husband, jumping forward, caught her in his arms and carried her into the warm, brightly lit cabin. He tried to lay her down on the nearest bunk, but she clung to him like a repentant child. Exhausted, they sat down together on it. Occasionally, he stroked her wet hair as she wept softly on his soggy, woolen sweater. "Warren, I've been such a fool—such a big fool."

As the coast guard boat lurched against the wharf, Gerald and Ronald were already there, throwing lines to the crew. Bill Bates was the first ashore, pulling her sons towards her. She kissed their cheeks and ruffled their hair, too happy to notice that it was dry—as were their clothes. Bill was glad she didn't. "Course sometime they'll find out, but somehow he didn't feel as now was the right time to tell her that he'd found the young ones asleep on a pile of sewing nets in the bathroom after they rowed away."

SHOOTED BANDED GOOSE

RENNIE, Man. — Henry Brodtkorb of Rennie shot a banded wild goose Sept. 28. It was banded No. 498-36359, with a request to notify the United States fish and wild-life service at Washington, D.C. when and where the bird was shot down.

Royal Dining Room On Wheels

The eating arrangements for Princess Elizabeth and the Duke of Edinburgh aboard the Royal Train which will be their home for a month in Canada are shown in this photo.

: Western Briefs :

Presbyterian Centenary

WINNIPEG — A pageant celebrating the 100th anniversary of the arrival of the first Presbyterian Minister at the Red River was presented in Westminster United Church here. The pageant depicted pioneer days of the church in Manitoba.

Rustlers Active

LESTERMINSTER, Alta. — Shades of the wild and woolly west were recalled after two district cattlemen offered \$1,000 reward for "information leading to the conviction of any one stealing cattle from our pastures."

Cattle Sale Average High

LESTERMINSTER, Alta. — The sale of 280 cattle brought \$71,914 for an average of \$256 at the Community Auction Sale association. Breakfast auction at Pakowit recently. A. E. Ryan, secretary-treasurer, said a good representation of Ontario buyers was on hand.

Full Employment

EDMONTON — Edmonton is close now to having "full employment" than at any time in the last 10 years, according to the local office of the Unemployment Insurance Commission. Besides the urgent call for harvest labor, the office lists numerous vacancies for construction workers.

Black Creek Dairy Sold

COURTENAY, B.C. — Comox Creamery Association has purchased the Mountain View Dairy at Black Creek. The dairy, owned and operated by Robert Craig, has been the principal supplier of milk in the Campbell River area. The sale must receive the approval of the Milk Board before it becomes effective.

Ask Rate Boost

EDMONTON — G. M. Blackstock, chairman of the Public Utilities Commission, said Northwestern Utilities Limited's application for a natural gas rate increase will be heard in Edmonton. The application will apply to Edmonton and several other cities and towns.

Big Day For O.C.

REGINA — Mayor B. W. Meior, officer commanding the 16th Royal Ordnance Depot in Regina, had a day to remember. He became the father of a baby boy, was promoted lieutenant colonel and shot six ducks on a hunting trip.

Pesky Critters

BANFF, Alta. — Now the summer tourist season is over Banff Advisory Council lists "unlicensed peddlers."

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? They can be anchored and anchored by such handiwork. PASTERTH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No gummy, sticky, pasty taste or feeling. Get PASTERTH today at any drug store.

THE TILLERS

Heavy Grain Loss In Alberta

CALGARY. — The Alberta wheat pool crop report estimates the Alberta crop loss due to the recent cold spell at 18,000,000 bushels—some 7,000,000 fewer bushels than the provincial agricultural department estimate.

The department estimated Sept. 28 that the loss in the oats crop would be 15,000,000 bushels and in the wheat crop 10,000,000 bushels.

First Commercial Hop

LILLOOET, B.C. — First commercial hop crop here has been harvested with a yield of about 14,000 pounds from fields planted by a commercial company. This figure out to 1½ bales of 200 pounds each to the acre, but next year the company expects to get from 10 to 15 bales an acre.

ASPIRIN

Keep dairy feed against an inside wall, condensation from an outside wall will cause some grains to spoil.

Bake this tasty CHEESEBREAD

easily, speedily with
new Fast DRY Yeast!

• New bread and bun treats are a treat to make with the new form of Fleischmann's Yeast! Never a worry about yeast cakes that scale and lose strength... new Fleischmann's Dry Yeast keeps full strength and last-acting right in your cupboard. Get a month's supply.

CHEESEBREAD

• Scald 3 c. milk; ¾ c. granulated sugar, 1½ ts. salt and 4 ts. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 5 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 min. THEN stir well.

Stir in cooled milk mixture. Stir in 4 c. once-sifted bread flour; beat with a rotary beater until the batter is smooth. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Work in 2 c. lightly-packed finely-shredded old cheese and 5 c. (about) once-

sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and let rise until doubled in bulk. Punch down dough; turn out on lightly-floured board and divide into 4 equal portions. Cover lightly with a cloth and let rest for 15 min. Divide each portion of dough into 3 parts; knead and shape into smooth balls. Place 3 balls in each of 4 greased loaf pans (4½ x 8½). Grease tops and sprinkle each loaf with ¼ c. shredded cheese. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 min.

MONEY-SAVING

MAIN DISH

with

INGERSOLL
cheese

BAKED FISH

with
Ingersoll BABY ROLL Topping

1 lb. any fish fillet, ¼ cup butter or margarine melted, ¼ cup chopped onion, ½ cup chopped celery or carrot, 1 egg, hot mashed potatoes, ¼ tsp. salt, dash pepper, 2 oz. cubed and 2 oz. shredded INGERSOLL BABY ROLL CHEESE.

Spread fish with melted butter or margarine on both sides, season with salt, pepper, bake in hot oven at 425 degrees F. for 10 minutes, or until fish heated through. Sauté chopped onion and celery (or carrot) in melted butter until tender but not brown. Mix with all remaining ingredients except shredded cheese. Quickly pile dressing on top of hot fish and sprinkle with the shredded INGERSOLL BABY ROLL CHEESE. Bake in oven for 10 to 20 minutes, (according to thickness of fish), to cook fish and melt and brown cheese. 4 servings.

Serve plenty of INGERSOLL CHEESE dishes... a wonderful way to cut down the food bill and still give your family flavorful, nutritious main courses. Ingersoll is made from fine Ontario cheddar recipes resulting from over 60 years in aging and blending fine cheese.

Always ask for

INGERSOLL
a cheese for every taste

Locals

The Rev. L. Thurston and Mrs. Thurston of Ashmont attended the Bartholow-Jackson wedding here on Wednesday.

Congratulations and best wishes to Mr. and Mrs. Bert Long whose 25th wedding anniversary is today, October 19.

We are sorry that an error occurred in Mr. Leo Shaw's trucking notice of two weeks ago. The phone No. is 53 and not 3 as was erroneously printed.

Born to Mr. and Mrs. W. Crabb at the Wainwright Hospital, Sept. 28, a son.

Miss Josephine Saville spent the week-end at her home here, returning from a visit with her father and two brothers at Duncan, B.C.

Born to Mr. and Mrs. Frank Thompson, the former Amy Wiese, at Victoria, B.C., a daughter, Margery Anne.

Mr. Fred Matthews, old time resident of this district who now lives near Whitehorse in the Yukon was an Irma visitor last week-end at the home of his brother W. J. Matthews. He was 16 years since he last saw Irma.

The Junior W.A. will meet next Tuesday at the home of Mrs. Anquist. Devotionals, Mrs. McMillan, Program Mrs. Glen Hockett. Hostesses, Mrs. A. Halverson and Mrs. W. Symington. Everyone is welcome to attend this meeting. All members are especially asked to attend if at all possible as arrangements will be made in regard to the Junior W.A. serving tea at the Senior W.A. Bazaar.

Tom Mackie and Wm. Parsons of Vancouver are visiting here, at the home of Mr. and Mrs. P. E. Jones.

Our congratulations and best wishes are extended to Mr. and Mrs. Chester Bartholow, the former Isabella Jackson, whose marriage took place on October 17.
